Profile

I am a UI/UX designer who prioritizes practical and realizable design outcomes.

Rather than presenting conceptual proposals that may not be implemented, I test and prototype every process so the final result aligns as closely as possible with the initial design intent.

Experiences

XENOIMPACT (Freelance Designer) | 2018.07 - 2025.11

Designed and implemented the official responsive website for XENOIMPACT.

- KORI AI PoC for Samsung Semiconductor
- Real Estate Doczip Platform – UI/UX Redesign
